

altitude.

mini-kiosk

simple and efficient guest self-service

Plug and play

Place the mini-kiosk at reception or in your lobby, plug in and go. You are instantly ready to offer a sustainable, contact-less self service journey for your guests.

Empowered automation

Create efficiencies throughout your operations and reduce overheads with technology, all while giving your staff more time to focus on guest service.

Easy key dispenser

RFID keys are dispensed during check-in and key pick-up. Guests can pre-check-in via the portal, scan their code and a key is automatically dispensed.

Save the environment

No printing is required with the mini-kiosk. All receipts, bills and messages are sent directly to the guest via email or SMS. Save on printing reg-cards and more.

small in size, big in features...

Check-in and out easily via a smart, simple to use interface within minutes

Easy to upgrade room types and purchase up-sells during check-in

Take **credit card payments and tokens** on screen or with external payment devices

The Altitude staff app displays device status, if help is needed and can **assign guests instantly**

Pick-up keys from the Guest Portal, Guest App and from staff requests.

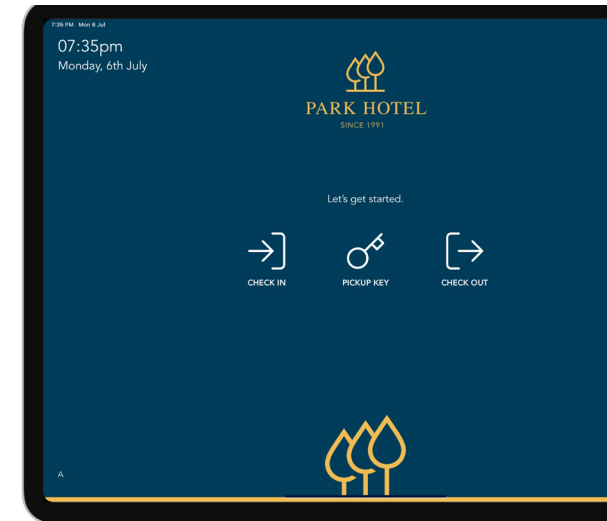

Book on arrival or for next stay directly from the Kiosk, with real time availability

the mini-kiosk is available with your Altitude subscription or a one off payment
